

>>Entry Name: Enterostatin

Synonym(s): Valylprolylaspartylprolylarginine. Pancreatic procolipase activation peptide. VPDPR

CAS Registry Number: 117137-85-6

Type of Compound Code(s): VV0400 AH0400

H-Val-Pro-Asp-Pro-Arg-OH

Biological Source: The amino terminal pentapeptide of pancreatic procolipase. Formed during fat digestion

Use/Importance: Decreases food intake in rats

Sigma: V0256
